

Project

Next half term's project will be about 'Our place in the Universe' as this is our topic for Summer term. You should carry out some research using books from the library, the internet or interviews with members of your family and neighbours.

You can present your project in any way you choose, but you should include some pictures, artwork and at least one full page of your own writing (**not copied from the internet**).

You should do at least two different types of genres. You can select from these examples.
Fictional writing based on an unfamiliar planet – eg, setting description, story, diary entry.
Poems about the Earth, sun, moon or another planet.

Information & facts about the planets in our solar system.

Pictures/models of the solar system or a fictional planet that you have made up

Information about how the Earth, Sun and Moon work together.

This is part of your work if the school is closed.

Add bits over time rather than doing it all in one go. There will be certificates and dojos awarded in assembly for the best three projects – good luck! 😊

**Maths**

Keep practising your times tables on TTRockstars and completing your Maths homework every week on Education City and Sumdog! Don't forget your Number star booklets!

**Spelling & Grammar**

Practice your grammar on Education City.

**Reading**

You should read at least 5 times a week for 20 minutes or more. Log into daily and read some books. Make sure you read and answer questions carefully. Your teacher will check your answers.

You can borrow a book from your star books, the school library or Thornton Heath library to read at home.
