

Y6 Maths task- Monday 8th – Friday 12th June

This week, we would like you to work through the White Rose lessons for Week 2.

To find the lessons...

- 1) Click on this link (if you cannot click on the link, copy and paste into your web browser):

<https://whiterosemaths.com/homelearning/year-6/>

- 2) Scroll to the bottom and click on the section headed 'Week 2'

(Not Summer 1 – we will do that at a later date 😊)

The work for this week is looking at calculating scale factors and ratio and proportion problems. Then moving onto measuring with a protractor and calculating angles.

Watch the video clips and then complete the quiz for each lesson-this can be found on PurpleMash.
